

## NS-CRB-6500 Container Ramp Fixed 6500kg

The NS-CRB-6500 container ramp is a perfect solution if you are on a budget but still want to know that you have a fully compliant product for the safe loading and unloading of goods from a container.

Forklift can move the ramp using the flip-up pockets. Fitted safety chains on either side to ensure a safe connection to the container while in use.

Rated 6.5 tonne with a fully reinforced underside to eliminate steel fatigue, the FCR65 is designed to handle most general applications with ease.
