

NS-TRUCK-8 Truck Ramp 8 Tonne

8 tonne truck ramp is perfect for getting your forklift from ground level into the back of the truck for loading and unloading

The National Sales 8 tonne truck ramp (also commonly known as a yard ramp) is the perfect solution for loading and unloading trucks or shipping containers that are still on the truck. The truck ramp is fully adjustable between 1.2m and 1.6m height using the adjustable legs. There is a good size flat deck area at the top of the ramp section so that your forklift is level so you can easily load and unload the 1st row of pallets on the truck.

The truck ramp is readily moved around your yard by lifting the tail flap and lifting the ramp and moving around on the tyres.

The truck ramp easily fits into a 40 foot ship container meaning that shipping this unit is very cost effective.

SPECIFICATIONS:

The Ramp is :

- Length: 10.3m
- Width: 2.2m
- Capacity: 8,000kg
- Height Range: 1.2m to 1.6m
