

## NS-TT920 Electric Platform Trolley 920mm Wide

The ELECTRIC PLATFORM TROLLEY is a very simple to operate alternative ideally suited to an even indoor floor surface in factories, warehouses, distribution centres etc. Ergonomically designed speed and braking controls for ease of use.

Fitted with a 500W motor to suit all requirements while the two 12V33Ah batteries are recharged via a 70w controller by simply plugging into a 240 volt outlet. Charging time approx 8.5 hours.

The use of a motorized trolley can save time and effort while increasing productivity and safety.
