

NS-OH-100 Electric Scissor Lift Table 1000kg

1000kg electric scissor lift table is the ultimate solution when a quick lift is required with minimal effort. As the electric lift is twice as fast as the manual scissor lift table, this makes the electric model a great investment when used on a constant day to day basis.

With a 1000kg SWL it makes light work of any job and fitted with an on-board battery charger requires only a 240volt power outlet to plug into at the end of each shift. With a simple push button control panel and this great little 4 wheeled scissor lift table trolleys recommended for many manufacturing and processing plant's looking to increase their level of safety and efficiency.
