

Type NS-SL-1 Spill Bin

The type NS-SL-1 range of Spill Bins offers a complete protection against damaging and costly chemical spills. Models catering for up to four (4) drums or to suit the 1000 litre International Bulk Container (IBC) (refer type NS-SL-IBC Product Specifications), are available. Close spacing support bars allow for large or small drums up to 2000kg SWL to be placed directly onto the Spill Bin. Timber pallets may be fitted within the raised skirt on the appropriate model. All type NS-SL Spill Bins are provided with at least one Drain Plug to empty the containment area and come in a long life Zinc plated finish.

All models have a spill capacity of at least 110% of the largest package in accordance with Australian Standards, being classified as "portable" units.

For all other specifications refer to the diagram & chart below.
