

## Wheelie Bin Lifter - Hand Pump (NS WBL-HP)

- \* Safe lifting capacity of 100kg
- \* Lifts 140L and 240L bins without adjustment (also 120 litre and 80 litre using built-in adjustment)
- \* Simple hand pump operation
- \* Australian Made and Australian designed

This manual wheelie bin lifter is simple to use but can lift 100kg.

20 manual pumps on the handle and your wheelie bin is safely tipped into your dumper bin with no risk of back injury.

### Features

- Manufactured of High strength tube
- Duragal - galvanising resists corrosion
- Powder coating - much longer life; tougher
- Rubbing and sliding parts - zinc coated less rust
- Solid tyres give stability
- Castor brakes on swivel and wheel
- Wider placement gives better stability
- High quality, long lasting cylinder
- In-built hose break valve; protected
- 2 year warranty on hydraulics

Attach the Binlifter to the dumper bin with the two sliding fingers. Then clip the wheelie bin into place on the yellow swing arm.

About 20 double action pumps will raise the swing arm causing the bin to totally dump its load into the dump bin.

Then undo the thumb screw valve and the empty bin will descent. Tighten the screw valve and the bin lifter is ready for use again.
